BI & PERFORMANCE REPORTING · AI OUTPUT EVALUATION

PROFILE

BI and performance-reporting specialist with **8+ years building dashboards, reports and executive presentations** across banking, cybersecurity, medical devices and facilities (HSBC, Trustwave, Zimmer Biomet, ISS). Day to day I turn complex data into **clear, presentation-grade dashboards, decks and spreadsheets for C-level** — and I am exacting about **factual accuracy, visual/aesthetic quality and presentation polish**. I review reporting outputs for errors, validate the logic and numbers behind them, and give **clear, structured written feedback**. Highly proficient in **Microsoft Office and Google Workspace (incl. presentation software)** and Power BI; I use **AI tools (Claude)** daily and build my own AI agents, which makes me a strong fit for **evaluating and improving AI-generated documents, spreadsheets and presentations against quality rubrics**. **Two master's-level degrees** from leading Polish institutions; fluent English; structured, detail-driven and self-directed.
