Financial Analyst with 8+ years of experience who genuinely enjoys bringing order to chaos. Proven track record of building budgets, forecasts, and financial models from scratch, not just maintaining existing ones. Hands-on experience turning messy data into structured reports and clear visualisations that make sense to both leadership and non-financial colleagues. Advanced Excel power user (pivot tables, macros, complex formulas, large datasets) with additional skills in Power BI, SQL, and Alteryx. Passionate about streamlining processes and implementing improvements that actually stick.
