Senior Power BI professional with 8+ years of experience designing, developing, and deploying enterprise-level BI solutions for C-level stakeholders in financial services and global corporations. Deep expertise in advanced DAX (CALCULATE, SUMX), Power Query (M), star schema data modelling, and SQL. Proven track record in performance tuning, semantic models, and data governance. Strong stakeholder engagement and data storytelling skills, with experience leading cross-functional teams and championing best practice in reporting, BI strategy, and self-service adoption. Familiar with Power Platform and Agile delivery.

WORK EXPERIENCE

Senior Finance Analyst / Power BI Developer

Oct 2024 - present

Trustwave Sp. z o.o. · Performance Management · Warsaw / Remote

- Design and deploy enterprise-level Power BI dashboards for Financial Directors and CFO: budget vs actuals, variance analysis, forecast tracking, delivering at-a-glance, executive-ready insights
- Build advanced DAX measures (CALCULATE, SUMX) and high-performance semantic data models (star schema) optimised for scalability across multiple financial datasets
- Develop ETL solutions using Power Query (M Language) and Alteryx: multi-source consolidation replacing manual reporting
- Apply performance tuning and report optimisation best practice: reducing refresh times and supporting governance standards
- Translate complex financial requirements into compelling data storytelling for senior stakeholders, driving commercial decision-making
- Maintain data integrity across reporting models: validation checks, source reconciliation, and standardised semantic definitions
